- **Concepts & Methodologies:** OOP, Data Structures & Algorithms, SDLC, Agile/Scrum, MVC, UI/UX Design, Software Testing

EXPERIENCE

Academic Projects : HNDIT Student

2024 - Present

Advanced Technological Institute, Tangalle, Sri Lanka

- Developed multiple software projects as part of HNDIT coursework.
- Gained practical experience in full-stack development, database design, UI design, and software engineering.
- Worked with Java, PHP, MySQL, JavaScript, and C# technologies.
- Designed, developed, tested, and documented software solutions.
- Collaborated with team members using Agile and Scrum practices.

PROJECTS

Travel & Tour Website

- Designed and built a responsive travel website that lets users explore tours, book packages online, and manage reservations with ease.
- *Technologies:* HTML, CSS, JavaScript, PHP, MySQL.
- [View on GitHub](#)

Food Inventory Management System

- Developed an inventory system to track food items, manage stock levels, and monitor product expiry dates.
- *Technologies:* PHP, HTML, CSS, MySQL.
- [View on GitHub](#)

Supermarket Billing Management System

- Developed a C# Windows Forms desktop application in Visual Studio for product management, billing, and sales reporting using MySQL.
- *Technologies:* C#, Windows Forms, MySQL.

- [View on GitHub](#)

Full-Stack E-Commerce Platform

- Developed a full-stack e-commerce platform with product catalog, shopping cart, and user authentication features.
- *Technologies: Full-Stack Web Development.*
- [View on GitHub](#)

QR Code Generator App

- Built a QR code generator application to create and customize QR codes for various purposes.
- *Technologies: Application Development.*
- [View on GitHub](#)
